Application/Control Number: 09/912,635

Art Unit: 1725

DETAILED ACTION

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest either alone or in combination a continuous static polymerization reactor unit as recited by claim 1, particularly the supply means in communication with the inlet means; means for introducing at least one viscosity controlling agent into the supply means; and the control means adapted to detect and correct any variation from the predetermined pressure drop value between the inlet and outlet means; or a process for making liquid polymers within a predetermined viscosity range in a polymerization reactor as recited by claim 8, particularly adding one or more viscosity controlling agents into the stream of monomers, oligomers, or mixtures thereof to form the reaction mixture; maintaining the flow rates and temperatures at substantially constant values; and the pressure drop values between the inlet means and outlet means are monitored by the control means which is adapted to detect and correct variations in the pressure drop from the predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1725

Conclusion

The prior art of record that is cited as of interest is presented on the form-892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiley Stoner whose telephone number is (571) 272-1183. The examiner can normally be reached on Monday-Thursday (7:30 a.m. to 6:00 p.m.).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on Monday-Friday at (571) 272-1171. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
